16:02:00 From Christine De Rosa / Public Health to Everyone : Welcome, everyone. Here is the link to today's CAG meeting agenda: <http://publichealth.lacounty.gov/eh/docs/healthresearch/cag-meeting-agenda-20210322.pdf>

16:03:40 From Issam Najm to Everyone : The meeting link above is not the same meeting link received from DPH on which we are now!

16:03:44 From Christine De Rosa / Public Health to Everyone : Welcome, everyone. Here is the link to today's CAG meeting agenda: <http://publichealth.lacounty.gov/eh/docs/healthresearch/cag-meeting-agenda-20210322.pdf>

16:04:11 From CAG - Patty Glueck. CAG member to Everyone : don't worry about that

16:04:15 From Issam Najm to Everyone : Look at the meeting ID

16:04:32 From Issam Najm to Everyone : Patty's post has a different meeting ID than the one we are on now

16:04:45 From Christine De Rosa / Public Health to Everyone : The Zoom link Patty posted is not for this meeting.

16:05:14 From Cristina Vega to Everyone : Join Zoom Meeting

16:05:43 From Christine De Rosa / Public Health to Everyone : Welcome, everyone. Here is the link to today's CAG meeting agenda: <http://publichealth.lacounty.gov/eh/docs/healthresearch/cag-meeting-agenda-20210322.pdf>

16:08:52 From CAG - Craig Galanti to Everyone : 6pm start

16:09:02 From CAG - Patty Glueck. CAG member to Everyone : 6 pm start

16:09:21 From CAG - Mrs. Blair - MSMU to Everyone : 6 pm start

16:09:27 From CAG - Andrew Krowne to Everyone : 6pm

16:10:01 From CAG - Brian Allen to Everyone : 6 pm start

16:11:00 From Christine De Rosa / Public Health to Everyone : Thanks to the CAG members who have reported their time preference. If you haven't done so already, please let us know if you prefer a 5 pm or 6 pm start to future meetings.

16:13:53 From CAG - Lori's iPad to Everyone : 6:00 pm start please

16:14:34 From Christine De Rosa / Public Health to Everyone : Thank you Lori.

16:18:31 From CAG - Andrew Krowne to Everyone : Please note, for full transparency., the "we" that was involved in the draft G&P formation DID NOT include the CAG.

The CAG only saw the draft G&P on March 18th, though the request for a sample G&P document from another study was requested months ago and never provided.

16:19:33 From Issam Najm to Everyone : Can you please identify a placeholder duration for each of the steps in the timeline?

16:20:11 From Christine De Rosa / Public Health to Everyone : Hi Issam - thanks for your question. We invite you to raise that during Q&A/

16:20:47 From Issam Najm to Everyone : Also, can you please note that there is "Contract Execution" step between the award and the research, which may take 6 months or longer. People should know about that and not have it come as a surprise.

16:21:09 From Christine De Rosa / Public Health to Everyone : Noted, Issam. Thank you.

16:22:26 From CAG - Craig Galanti to Everyone : Kris, when was the community survey reviewed by the SOC? Where is the feedback from that meeting?

16:23:38 From CAG - Patty Glueck. CAG member to Everyone : The CAG has asked several TIMES for the data from the survey. Why haven't we seen it?

16:24:27 From Christine De Rosa / Public Health to Everyone : Craig and Patty, thanks for your questions. If they aren't answered in the presentation we invite you to ask them during Q&A.

16:25:25 From CAG - Mrs. Blair - MSMU to Everyone : Since there is no CAG liaison to the SOC (as promised by DPH months ago), how can the community concerns be represented in the health study goals and priorities? There is very little evidence to show that the community was well represented in the development of the Health Study goals and priorities.

16:25:38 From CAG - Brian Allen to Everyone : Is this a CAG meeting or a DPH meeting?

16:26:17 From Christine De Rosa / Public Health to Everyone : Hi Mrs. Blair - the goals and priorities are still in draft form for community input. There is still time for the community to weigh in.

16:26:36 From CAG - Andrew Krowne to Everyone : The CAG officially requests a slide deck or pdf of the G&P survey that the community is going to participate in. Thanks you

16:27:08 From Christine De Rosa / Public Health to Everyone : Hi Andrew - your request is noted.

16:27:09 From CAG - Mrs. Blair - MSMU to Everyone : Also, there are two SOC members that were removed as of the beginning of 2021. Both of these members were members that were endorsed by the larger community. There is extreme concern that the document was not developed with a view to the voice of the community.

16:28:38 From Christine De Rosa / Public Health to Everyone : Thanks, Mrs. Blair. We have quite a bit of time on the agenda for discussion of the goals and priorities and can discuss your concern.

16:29:43 From Helen Attai to Everyone : What community involvement? If there was community involvement, what are community's requests, asks or needs for this so called "health study"? We need to know what community is thinking or asking please.

16:30:17 From CAG - Andrew Krowne to Everyone : Christine - when can the CAG expect those slides? Thank you.

16:33:13 From Christine De Rosa / Public Health to Everyone : Hi Helen, there have been a variety of community outreach activities, and that can also be discussed during Q&A if not answered before. There is also a community feedback log on the CAG page:
<http://publichealth.lacounty.gov/eh/healthresearch/cag.htm>

16:33:54 From Christine De Rosa / Public Health to Everyone : Hi Andrew, we will discuss and let you know. Thanks.

16:35:20 From CAG - Andrew Krowne to Everyone : Christine - being that the aren't secretive nor proprietary in any way, it seems a "no brainer" that we could be provided with them immediately. Not sure why a discussion would need to take place for an easy item. Thanks

16:37:21 From Helen Attai to Everyone : Thank you Christine, is there actual questions and comments from the community members on that site? I do not see it, I see a survey but not community's comments in their own word, am I looking at the wrong place ?

16:39:38 From Christine De Rosa / Public Health to Everyone : Hi Andrew - are you talking about the community survey to provide input on the goals and priorities?

16:40:28 From Christine De Rosa / Public Health to Everyone : Helen, I'm having trouble posting the link but if you go to the bottom of the CAG page click on (Ongoing) Community Feedback Log

16:41:24 From CAG - Craig Galanti to Everyone : Yes Andrew is referring to the survey for the Goals & Priorities. Agree this should be something that justifies full transparency.

16:43:17 From Cheri Derohanian to Everyone : Did you ever obtain and update the Survey Responses from last Nov (2020), when you extended additional time to allow more Port Ranch residents/stakeholders to respond to that Survey. We never were made aware of the NEW SURVEY RRESULTS. My understanding is that were an addition 170 + respondents to that SURVEY. Please share those updated findings with the Community.

16:43:39 From Amy C to Everyone : Sorry, I missed the first few minutes of the call. Didn't see an agenda so am wondering if you'll be addressing what the community has been exposed to, what the health impacts are and what steps are being proposed to remedy following the 2015 blow out exposure.

Would you please advise or let us know where we can find this info (5+ years later) so that we can rectify negative health effects?

16:44:36 From CAG - Andrew Krowne to Everyone : Christine - to eliminate any confusion. We want these slides:

https://docs.google.com/forms/d/e/1FAIpQLSeiZ55BEf1h0wNpC7Fh-HBY_2KJL2xY9xFKWmuTe3Dzsfz79Q/viewform

Thank you

16:46:00 From Christine De Rosa / Public Health to Everyone : Craig and Andrew, that shouldn't be a problem. I just don't know exactly how long it will take. We should be able to get it to you in a follow up email.

16:47:13 From Christine De Rosa / Public Health to Everyone : For anyone who joined late, here is a link to the agenda:

16:47:17 From Christine De Rosa / Public Health to Everyone :
<http://publichealth.lacounty.gov/eh/docs/healthresearch/cag-meeting-agenda-20210322.pdf>

16:47:36 From CAG - Andrew Krowne to Everyone : Christine - follow up email is fine. Just have a jr. staffer run through the survey taking screen grabs. Put them in a PDF and sent it to us. Should take no more than 10 mins.

16:47:51 From CAG - Craig Galanti to Everyone : The G&P call out the use of proxies or estimates of elements of exposure. Making guesses about the toxin exposure and quantities is not acceptable by the community when full data can be obtained by using subpoena authority. All chemicals used on site as well as the full constituents of the gas, liquids and solids that were collected and tested by SoCalGas. I do not support a study that doesn't use ALL data available and relies on "guesstimates" when real data is available but willfully ignored!

16:48:10 From Christine De Rosa / Public Health to Everyone : Andrew, you just want all the questions, right?

16:48:36 From Helen Attai to Everyone : Christine, could you please send me the community's comment and survey that was done by the community in their own word and not a general statement that "community feels...". There were over 150 residents taking the survey, could you post those surveys or copy of those IN THEIR WORD?

16:48:39 From CAG - Andrew Krowne to Everyone : Christine - we would like whatever the end use will see as they move through the online survey.

16:49:35 From Christine De Rosa / Public Health to Everyone : Helen, the survey reports will be posted on the web site.

16:49:50 From CAG - Mrs. Blair - MSMU to Everyone : I would like to make a comment

16:50:11 From CAG - Patty Glueck. CAG member to Everyone : Mary needs ot go

16:54:34 From Christine De Rosa / Public Health to Everyone : The online form for the community to provide comments on the goals and priorities is available at:
<http://publichealth.lacounty.gov/eh/healthresearch/>

16:56:46 From Christine De Rosa / Public Health to Everyone : Click on "Submit Your Comments" and there is a link to the online form in the first document.

16:57:50 From CAG - Melissa Messer to Everyone : I'm not allowed to unmute

16:58:44 From Helen Attai to Everyone : Christine I do not want the report of community's comments, I want the actual survey and comments in the community's own wording and language

17:00:05 From Amy C to Everyone : Thank you CAG Members! You're thoughts and comments reflect the ongoing concerns of thousands of people in the area.

17:04:09 From CAG - Mrs. Blair - MSMU to Everyone : I would like to go on record that the majority of CAG, including myself, have repeatedly asked for a patient centric study that Brian spoke about. This is what we (CAG) has asked for many times and at many CAG Meetings.

17:07:29 From janefowler to Everyone : We are the data!

17:08:20 From Deirdre's iPad to Everyone : Our bodies will tell the true story!

17:10:24 From Helen Attai to Everyone : YOUR BOSS, SUPERVISOR BARGER HAS THAT POWER Dr. DAVIS!

17:12:10 From Helen Attai to Everyone : "We" the community WANTS a health study on us the people who have been affected & not the trees or the dirt or environment... THE PEOPLE

17:12:56 From CAG - Mrs. Blair - MSMU to Everyone : There have been surveys created by DPH for Aliso Canyon. We (as CAG) have asked for the results of those surveys and have not received any of this information. We do not have confidence that the survey responses will be disclosed and that there will be transparency about the respondents to the survey. What if there are less than 25 respondents to the survey on the website? How can this be an adequate representation of the community. There is no transparency and this contributes to the community mistrust. PLEASE READ MY COMMENT PUBLICLY. Thank you.

17:15:06 From Cheri Derohanian to Everyone : 1) HOW LONG DOES THE PUBLIC HAVE TO MAKE COMMENTS ON THAT PROPOSAL?

17:15:52 From Cheri Derohanian to Everyone : 2) DO YOU FOLKS DO ANY OUTREACH, SO THAT OTHER RESIDENTS AFFECTED BY THE ALISO BLOWOUT CAN WEIGH IN ON YOUR DOCUMENT?

17:17:17 From Christine De Rosa / Public Health to Everyone : Hi Cheri - the public comment period ends April 16. Yes, we are doing broader outreach and hope to reach a wide variety of residents to seek feedback.

17:18:11 From CAG - Craig Galanti to Everyone : For the CAG's view on the Cancer Surveillance Study go here for a full explained here: <https://youtu.be/OJPuJEz2oEs>

17:18:31 From Cheri Derohanian to Everyone : What sort of Outreach is that exactly? If I didn't follow Patty Gloeck's posts on social media, I would never know about CAG MEETINGS

17:20:16 From CAG - Patty Glueck. CAG member to Everyone : I suggest that every community member in this meeting to please go to alisohealthstudycag.org We have several videos that you should watch before taking this survey. We are also planning a town hall this Monday with a health expert.

17:20:19 From Christine De Rosa / Public Health to Everyone : Cheri we are doing outreach to Neighborhood Councils, emails to the constant contact list, press releases, and website updates.

17:21:26 From Christine De Rosa / Public Health to Everyone : You can use this link to sign up for updates: <https://lp.constantcontactpages.com/su/mLu15HQ/alisostudy?>

17:21:50 From CAG - Patty Glueck. CAG member to Everyone : This will be the link to that town hall. We still have to confirm the time for the meeting, but either 5 or 6pm this Monday. Please attend and ask your questions and you should be ready to inform DPH about the G and P statement. Join Zoom Meeting

17:25:18 From Helen Attai to Everyone : If DPH really wants to reach the affected residents, you need to send the survey questions email through all attorneys who are representing over 30,000 affected residents and not the neighborhood council meetings with very few (handful) residents attending. If you honestly want a survey that is the way to do it!!

17:30:33 From Helen Attai to Everyone : Sorry, You have not your best Dr. Davis, you are not even hearing the community

17:30:37 From CAG - Melissa Messer to Everyone : Re: subpoena...Supervisor Barger, in a meeting with the CAG last year, vaguely told us that "something was happening" with the County Counsel. She also said to contact her assistant to meet with her around the holidays last year. She hasn't met with us again yet.

17:34:35 From John Eing to Everyone : Does DPH know what was the second largest blowout, and the impact to the residents of that incident?

17:48:24 From CAG - Patty Glueck. CAG member to Everyone : Has that survey been shared with the CAG subcommittee? The subcommittees have been disbanded, so I'm confused how that could be. I haven't seen anything shared with the whole CAG.

17:48:32 From CAG - Craig Galanti to Susan Harden (Direct Message) : Dr. Nordella has a question but is unable to raise his hand. Would you please call on him and unmute

17:48:35 From CAG - Craig Galanti to Susan Harden (Direct Message) : thanks

17:49:12 From Christine De Rosa / Public Health to Everyone : The survey was shared with the CAG members who worked on it.

17:49:17 From Susan Harden to CAG - Craig Galanti(Direct Message) : yes, next

17:49:30 From CAG - Craig Galanti to Susan Harden (Direct Message) : thumbs up

17:50:20 From Helen Attai to Everyone : Is it because after 3 years point DPH gets the \$13M out of \$25M according to the settlement? Is that why 3 years is very important for DPH?

17:51:26 From CAG - Patty Glueck. CAG member to Everyone : The CAG has been requesting to be told about the results before it's shared because we represent the community. Unfortunately back in October a rough draft was shared with the SOC even though we've asked to see it before them and we were absolutely right to be concerned because the sample didn't represent the north SFV. How were the respondents were selected...."consumer data" is a very vague qualifier.

17:51:36 From janefowler to Everyone : FYI- a few years ago a group of community members had many meetings with DPH and not one of our requests were answered or met. Some were simple requests. For example, we wanted a letter to take to our doctors to let them know that we were exposed to something and that they could test despite Rangan's letter. We could not even get a letter to approve testing.

17:51:49 From Jon Teboe to Everyone : you did not answer WHY A FINGERPRINTING OF THE OILE RESIDUE WA NOT DONE for the 4 months we breathed in

17:53:10 From CAG - Patty Glueck. CAG member to Everyone : If we had been allowed to look at the rough data, we could have immediately pinpointed what the flaws were. Instead we were shown it at a CAG meeting and both our group and the community, and we pointed out the problems. Yet we were accused of being disrespectful toward Adam P.

17:54:53 From CAG - Patty Glueck. CAG member to Everyone : The problem with the results from this data was that it gave a very false impression to the SOC (and if shown to researchers) about how the blowout and the continuing spewing of emissions is affecting us. too many people who didn't live in this area or otherwise ignorant of what happened gave namby pamby answers.

17:56:11 From Christine De Rosa / Public Health to Everyone : 6 of 8 CAG members voted for 6 PM

17:56:59 From CAG - Craig Galanti to Susan Harden (Direct Message) : Nordella has a follow up please

17:57:30 From Helen Attai to Everyone : That is the problem, ALL those DPH people involved at the time of blow out conveniently are gone so any questions we ask, the answer is “well, I was not here at the time of blow out” 😞

This is not acceptable and getting a bit old

17:57:41 From Cheri Derohanian to Everyone : Yes I agree, the 4pm meetings are impossible to attend for many residents. We all work. That is why I came late. 6pm would allow us to attend these meetings and not miss things.

17:58:39 From Susan Gorman-Chang to Everyone : Excellent suggestion Brian

17:58:51 From Cheri Derohanian to Everyone : When the CAG meetings were held "in-person" they were not at 4pm, because I went to all of them then.

17:59:19 From CAG - Patty Glueck. CAG member to Everyone : we keep getting promised but July?

17:59:27 From Jon Teboe to Everyone : When will this recording be available?

17:59:34 From Jeffrey Nordella M.D. to Everyone : I would like to respond to Dr Davis

18:00:27 From Helen Attai to Everyone : This is talking longer
